

School Trustees Hold Regular Meeting Tuesday

The regular meeting of the trustees of Sunset School was held Tuesday evening in the principal's office, with all members present. There were also several visitors in attendance.

Don Coon, who is superintending the building of the retaining walls and a few other repairs under the CWA, reported on the progress and the costs. Sixteen men are working on this wall, which was started under the county relief work.

A letter was read from Mrs. Francis E. Robinson of Monterey asking whether she might send her granddaughter to Sunset so that she might receive the benefits from this school in company with her little brother, who attends here. She also expressed her appreciation for the wonderful training her grandson is receiving. The board decided that they had no authority to allow the child to attend here.

The subject of the state engineer's report on Sunset building as to its stability during earthquakes was brought up by Mrs. Sheets and a demand was made on the board that the same should be published in full. It may be found on Page 2 of this issue.

The board decided to call a committee of six architects and builders to get their ideas as to what parts of the program of strengthening should be done since there is not money available for the whole program. It was brought out that while these additional safeguards might be made under CWA, the government does not pay for materials, except possibly a very small amount.

A talk was made by Architect Hyland who stated that the brief was made from the original report because the original is so voluminous that it is difficult for anyone not educated in that line to understand, and that there was no question of publication nor of any other action.

W. Adams spoke on the building as a fire hazard and said the attic in the auditorium behind the stage should be closed off.

Ernest Bixler, representing the Carmel Labor Bureau, asked the trustees to designate local labor when letting contracts.

The Sun editors, who were making their first visit to a trustees' meeting were impressed with the dignified way in which Chairman Ewig handled the affairs of the board and with the patience of the entire board under the heckling they received.

HENRY B. SCHULTE DIES IN VALLEY

Funeral services were held last night for Henry B. Schulte who died December 27 from a heart attack.

Mr. Schulte was born in St. Paul, Minnesota, April 7, 1885. Coming to California in 1894 he spent the early part of his life in the San Joaquin and Santa Clara valleys. Twenty-three years ago he came to Carmel Valley where he engaged in the orchard business until the time of his death. He took a deep interest in all community projects and will be greatly missed by a large circle of friends.

He is survived by his widow, Mrs. Anna K. Schulte; a son, B. H. Schulte; a daughter, Mrs. Roy Martin, all of Carmel Valley; three sisters, Mrs. Caroline Fishman of Sunnyvale, Mrs. Clara Goodwin of San Jose; and the following grandchildren: Virginia Lee Schulte, Anne Elizabeth Martin, Bernard Schulte, Jack and Royden Martin and Phillip Ora Hutton, all of Carmel Valley. —Carmel Valley correspondent.

Three One-Act Plays For Next Monday Night

Three one-act plays will be read by the Community Play reading group at Pine Inn next Monday night, as follows:

"The Jest of Hahabala," by Lord Dunsany, time of reading, seven minutes. A real New Year thriller.

"The Sham," by Frank Thompson, time about 25 minutes, and "The Dark Lady," by Shaw, time 35 minutes.

If you haven't attended these readings in the past, it will be a good idea to add them to your pages of resolutions.

Next Monday evening, at Pine Inn at 8:30. Each person attending is supposed to contribute ten cents toward expenses of the evening. The Sun makes this last statement because so many have asked the price of admission.

The city of Monterey has invited the Oakland A's to train at the Santa Cruz park.

Son of Rev. and Mrs. Willis G. White Killed

Falling while going about his duties at the mine where he was employed in the Philippines, John Bidwell White, son of Rev. and Mrs. Willis G. White of Carmel, met his death Friday, according to word received by the parents, through a cablegram.

It will be remembered that the young man received his appointment to the staff of a large gold mining company just a few months ago, with a three-year contract as announced in Carmel Sun. He had been married for two years and his wife went to join him just before Christmas.

Rev. Mr. White has been quite ill for some time and the news comes as a great shock to him and Mrs. White, who are well loved in Carmel. The entire city joins in sympathy.

Community Chest Fund Short of Desired Sum

Instead of the \$22,000 desired, the Community Chest fund for the peninsula contains only \$15,240, and this sum was allotted to the different agencies last week as follows:

Salvation Army	\$3,150
Community Center	2,850
Boy Scouts	2,100
Red Cross	1,875
San Carlos Welfare	1,650
Milk Fund	900
Pacific Grove Relief	475
Carmel Girl Scouts	450
Grove Girl Scouts	300
Administration	1,290

Mrs. M. Dickinson Dead at Age of 95

Mrs. Mary M. Dickinson, at the age of 95, passed away Wednesday afternoon after a prolonged illness.

She had resided for the past eleven years.

The deceased was born in Dixon, Ill., in the first brick house built west of Chicago when Illinois was a frontier state. The early part of her life was spent in St. Louis, and from there she went to Rockford, Ill., where she spent 42 years of her life.

Surviving are the daughter, Mrs. Skene, a son, Henry F. Dickinson of Carmel and a son, John M. Dickinson, of Chicago and Rockford.

After funeral services here at the home of Henry F. Dickinson, the body was shipped to Rockford for interment.

World Premiere of New Comedy Here

Edward Kuster has taken over the production of J. B. Farrell's comedy, of "Greenwich Village," "Twenty Lascivious Turtles," recently announced for early performance at Carmel Community Playhouse. The dates set for the premiere are January 18, 19 and 20, and already San Francisco and Los Angeles press critics are arranging to view it.

It was primarily sent here from Hollywood in order that it might be seen in production by motion picture studio representatives. Kuster, who will personally direct the comedy, makes the following comment: "We hope our friends will not become unduly excited about the title of this new and very funny comedy. It is Shakespeare's idea, this title of this title, not the present author's. In a few days we expect to offer a handsome reward for the best hundred word blurb on the origin of this title. Herbert Heron and John Jordan are barred from the contest. We are going to offer these gentlemen a special prize if they can tell in Shakespeare's phrase applies to the play."

Colonel Says Building Open to Civilians

Col. Ralph M. Parker, commanding officer of the Monterey Presidio, has announced that the recreation center which he hopes to have constructed under the CWA program, may be open for civilians as well as for the army.

He expressed the hope that such a condition would cement friendly relations between the presidio and the rest of the peninsula.

The building will be constructed for basketball, boxing, dancing, swimming, etc.

Mrs. Dixon Opens Own Real Estate Office

Opening her own real estate office, Mrs. G. Kingsland Dixon is established in the Curtis building, occupying the room with the Pottery Flower Shop, next door to Curtis' restaurant.

Mrs. Dixon will do a general real estate business, specializing in Carmel Valley and Pebble Beach properties. She is well known in Carmel and has a host of friends here who wish her the success she deserves.

Mrs. General Shuyler is moving to her new home on Camino Real from her house on Carmelo and Fourth. The new residence was built by James Vernon Short of Berkeley, a property owner here.

O. W. Barderson Is Given Life Certificate

Carmel has occasion to be proud again this week, as she often is of her distinguished citizens.

Prof. O. W. Barderson, principal of Sunset school, received notification from the California State Department of Education that he had been granted a life diploma for secondary teaching and administration. This honor means that Mr. Barderson may teach any junior high down with this diploma as his credentials.

Orchestra To Rehearse Next Sunday Evening

The Sunday evening orchestra rehearsals will be back with us again next Sunday when the Monterey Peninsula orchestra will begin work on Easter music.

There is no better way to spend a Sunday evening than to attend these rehearsals, which will be held as usual at the Denny-Watrous gallery.

High School Teachers Married in Fresno

Miss Marlan Cowan of Carmel and Mr. Glenn Watson of Monterey, both teachers in Monterey High, were married in Fresno on New Year's eve. Both young people have many friends here.

Big Sur Land to Be Zoned by Commission

Unless the residents in the Big Sur district along the coast route can present some acceptable zoning plan before the fifteenth of this month, the county planning commission will proceed to zone the district according to their own ideas. They have deferred the zoning because the residents there have asked to make their own plan. They have not, however, been able to get together it appears.

Town and Country Shop Having Fine Sale Trade

They're coming from all corners of the peninsula to take advantage of the bargains on the smart coats, dresses and hats at the Town and Country Shop. Not even the rain dampened the enthusiasm of the shoppers and they came and went all day Friday and Saturday.

Mr. McFarland and Mrs. James are continuing their bargains this week and are expecting more shoppers this week-end than ever.

Carmel Physician Is Called by Death

After eight years of illness, Dr. Henry J. Holliston passed away at his home in Carmel on New Year's day.

Dr. Holliston came here from Chicago twelve years ago and practiced until illness forced his retirement. Many friends here sincerely mourn his passing and sympathize with the bereaved widow and daughter, Mrs. Sidney Rodkin of Chicago.

Funeral services were conducted at the Carmel Community church Tuesday and the body sent to Santa Cruz for interment.

C. H. Barnett and Pearl Hoyt Are Wed

A wedding ceremony was performed in Goldendale, Wash., Jan. 3, 1934, uniting in marriage Mr. Corwin H. Barnett and Miss Pearl Hoyt. After living in several different towns the happy couple came to Carmel two years ago and Wednesday celebrated their thirtieth wedding anniversary receiving congratulations from their friends at the Home-stead of which they are proprietors.

Four children were born to Mr. and Mrs. Barnett, a son, who lives in Washington; one daughter living now in Santa Maria and one in King City and a son, William, in Carmel, living at home.

It is the wish of hosts of friends that Mr. and Mrs. Barnett enjoy many more such anniversaries.

City Council Considers New License Rates

"I guarantee to write a license law and I guarantee it won't be accepted," said John Catlin, Mayor at the regular session of the city council last evening when a letter of protest was read from the Viennese Shop on the unfair license fees. A committee was appointed to look into the nature of the stock and sales of Viennese shop. The council will sit as a committee of the whole next Wednesday evening to work out a fair and equitable license scale.

A letter from August England, as tax collector, was read wherein he asked what to do delinquents. The council stated that they had no authority to change past tax rates but could act for future rates which implies that those who have been holding off in hopes of getting their rate lowered will have to pay but may have relief in the future.

A letter was read from W. W. Sellards asking the appointment of nightwatchman to fill the office of the late Everett Van Auker. The letter was filed.

It was decided to use the tax money amounting to about \$2800 on the Santa Lucia road and the old highway.

Archie B. Fleming asked the appointment as city engineer. Letters were also received in his behalf from M. F. Cosens of Salinas, now doing the work and the Del Monte Properties company by whom he was employed nearly eight years. The appointment will be considered in the February meeting.

Several letters were read as to the building of the new postoffice here, with no definite promises. Mayor Catlin will continue in his efforts to get action.

The city appears to have been on account of the CWA project, Mayor Catlin called attention to the fact that the city had never defaulted on its bonds but probably would have to do so under these conditions.

FINE PROGRAM PLANNED FOR ASSEMBLY FRIDAY

A most interesting program has been arranged for Assembly next Friday morning at 11:10. All who wish to attend are cordially invited to be present. The program will be given over to readings as follows:

The second grade will read a short folk tale; and the third grade, a short story; Several eighth grade pupils will read two plays, first, "The Traveling Man," a one-act play by Lady Gregory, based on an old Irish folk tale. Cast: Mother, Eugenia Fulton; Child, John Plank; Traveling Man, Spencer Kern.

Second play: Short play of the Prologue type, entitled, "The King With the Iron Heart," to be read by Allan Lane, Ralph Lee, Joyce Uzzell, James Haskell, Roger Fulton, Bill Welch, Bob Irwin, Patricia Thompson and Peggy Clough.

Those who attend the Third concert of the Carmel Music Society at Sunset Saturday night are invited to view the art work which will be on display in the foyer. This is original work of the children.

Miss Lois Anderson, a student in San Jose State, has been assigned to Sunset school to study teaching for the coming six weeks.

Games of basket ball probably will be played some time this week. The boys are very light but have improved and were recently able to defeat a group of younger or high school boys from Monterey, who came to play them. Boys who play in over 50 per cent of the games and display fine sportsmanship in practice and during the games will receive a small block S at the close of the basketball season.

Hills Are Brightening With Much Rain

The hills of this section are turning from the brown velvet to the green velvet stage since the winter rains began. Wild flowers will soon be out and spring will open in full beauty.

The rainfall this season has been 4.77 inches as against 3.23 inches at this time last year.

Garden enthusiasts vie with the valley ranchers in enjoying the downpour.

Children Give Christmas Program

The following program was given by the children of Carmel Mission for Christmas:

Young and Old Enjoy Old Mission Dance

Young and old that gathered at the Serra Crespi Hall for the second monthly dance given by the Old Mission Guild had a very enjoyable time. Dances were carried away by good music, balloons, punch, coffee and sandwiches served at midnight, achieved to give a real friendly atmosphere to this church affair.

In charge were: Mr. G. Van de Broeke, Mrs. Mildred Melrose, Mrs. James B. McGrury and Miss Stella J. Guichard.

Marjorie Legge In Recital Soon

Marjorie Legge, pianist, fresh from concert triumphs in Vienna, will give a brilliant program at Carmel Community Playhouse. This gifted and charming young artist recently gave a private recital in Carmel which gave evidence of an extraordinary talent. One of the outstanding numbers on the forthcoming program will be the prodigious Cesar Franck Chromatic Fantasia and Fugue, Brahms, Chopin and Debussy will also be represented in a program of freshness and variety.

Out-of-Town Folk Attend Local Wedding

Among the out-of-town folk who attended the wedding last week of Miss Harriet Hasty and Mr. Cedric Rowntree were: Mrs. Homer Tabb of Santa Maria and her mother, Mrs. Hamlin of Atascadero; Mrs. Carl Bryant of Atascadero and her daughter, Miss Elizabeth Bryant of Mills; and Dr. Bennett Allen, doctor of zoology at U. C. L. A., a cousin of the bride.

The foregoing were among the guests who were invited to the lovely home of Mr. and Mrs. Willard Wheeler in Pebble Beach after the wedding. Mrs. Wheeler was assisted by Mrs. Vera Peck Mills and Mrs. Vera Koch in her beautiful dining room resplendent in crystal and silver and lighted by the soft glow of tall white candles.

The bride and groom spent their honeymoon at Carmel Highlands and in San Francisco, after which Mr. Rowntree returned to his work at Camp Ganquet.

COMMUNITY CHURCH Melvin C. Dorsett, Minister

9:45—Church school for beginners to juniors.
10:00—Services for intermediate age.
11:00—Service of worship.

Last Sunday we sought the sources of courage for facing happily the unknown life and found that 1834 holds high adventure for growing virile minds. This Sunday we will face the fact that being able to forget well is just as essential to happy, successful living as having courage to look forward. We shall seek to find out the factors related to forgetting, and bid "Farewell to 1933."

The quartet: Anna Marie Baer, Gertrude Barderson, Frank Binney and Miles Bain will sing "The Lord is My Shepherd." 6:30 to 8:00—J-O-Y Club. "A fine group having a good time together."

Mrs. Etta C. Fletcher returned from Oakland the first of this week where she spent the holidays with her son Ralph A. Fletcher and her daughter Naomi Fletcher.

Roland Hayes Sings for Carmel Music Society

Roland Hayes, the apostle of his race and the epitome of perfection in vocal technique, arrives in Carmel Friday for his concert for the Carmel Music Society in the Sunset School Auditorium on this Saturday evening, January 6.

"Painter, poet, sculptor and minstrel in one was Roland Hayes, the master singer, in which he sang, master of the human emotions of his audience upon which he played as though upon a great organ." "I came from Chicago after Mr. Hayes had sung at the Century of Progress Fair. And Heywood Brown wrote in the "Nation", "Whether mortal is actually susceptible to music, I do not profess to know; but I have seen the whole edifice of white superiority totter when Roland Hayes sang 'The Crucifixion'."

Roland Hayes' program for his concert in Carmel Saturday will show the noble quality of his voice and the artistry of his interpretation to the full, for he sings classic, romantic, and negro spirituals. Accompanying him at the piano will be Percival Parham, who has come out from the East for the concert, and who has played for Mr. Hayes for many years. Following is the full program:

Thomas A. Arne (1700) The Faithful Lover.
Giacomini Galuppi (1600) Eviva Rosa Bella.

EARTHQUAKES AND THE SCHOOLBOARD

The particular tempest involving the School Board just at present is a situation wholly outside of their making. The very fine school buildings here were built a few years ago under plans approved by the state engineer and in every way meeting then existing laws governing the safety of public buildings. At the last session of the legislature, in the light of greater knowledge coming out of earthquakes at Long Beach, new laws were passed governing public buildings that require some changes in the buildings of Sunset school.

An elaborate inspection of the buildings here was made by State Engineers last summer and a voluminous report given the school board. The report is highly technical in nature and bristles with phrases wholly meaningless to the layman. A summary of the report was published in local papers at that time and the school board at once began planning on making such improvements as they could out of a limited budget. To make all of the repairs, will cost about \$10,000. It is possible that a part of this can be obtained from the government under the CWA program but there remains a heavy expense the school board cannot pay out of current funds. A questionnaire was sent the parents of each pupil asking if the damaged situation is as bad as to call for a bond election and from the returns it was evident a bond election would not carry and would be a needless expense in itself.

There are a few, some present at Tuesday night's meeting, who insist improvements recommended by the state engineer be immediately made irrespective of expense or means. The same people also imply the summary of the report published in the local papers last summer omitted several major recommendations and to meet this criticism the school board is publishing in this week's Sun a complete, word for word copy of the State Engineer's recommendations. The school board is making as many of the improvements as they can with limited means—other and ALL the improvements will be made when and IF the taxpayers provide the money.

The school board can spend only such monies as the tax payers provide and then only in a highly restricted manner. Certain sums must be spent for definite purposes and for nothing else, and any deviation from this requirement constitutes a criminal offense on the part of the officials. The school board has a comparatively trifling amount set aside in their budget for contingent and emergency expense and this sum is by no means enough in this year's budget to make the changes suggested by the state engineer.

The school board is anxious to make every suggested change but the situation narrows down to one thing; the majority of the taxpayers will decide what is to be done. If the taxpayers will it, the present buildings can be razed and built again, or the matter can wait until next year's budget and then be corrected. And it must be borne in mind, the State Engineer has not condemned the local buildings—quite the contrary—he states the buildings are in excellent repair and of very good construction, and only suggests improvements to comply with new laws.

It would of course be a ghastly calamity if an earthquake should demolish the school building during school hours but after all there is no escaping the hazards of life; we might have an earthquake; a tidal wave; falling airplanes and falling trees—in life we are in death, but let us consider the school board's efforts in a spirit of tolerance and co-operation and the situation will be met in an entirely practical manner.

Subject: Examination of Sunset School Buildings, Carmel.
Dear Madam:—

In making the examination a general investigation was first made by the writer in company with Mr. W. J. Long, Senior Structural Engineer with the Division of Architecture, at which time the scope of the investigation was determined upon. A number of days were then spent by Mr. Long in making a detailed examination of the various buildings and units of the above school to determine their present condition as well as the character of materials and workmanship that entered into their construction. Blue print drawings were available to us in most part for the buildings and the loan of them very materially assisted us in our examination and studies.

In formulating conclusions and recommendations with respect to reconstruction the Division of Architecture has considered all outside the scope of the investigation to make definite recommendations with regard to the economic feasibility of the reconstruction. Consequently, where reconstruction is possible, the nature and extent of the repairs which have been described without reference to justification for the expenditure involved.

City of Carmel decides to proceed with this work, they should employ some competent Architect or Structural Engineer to prepare detail designs and submit them to the State Division of Architecture for approval before starting any work.

Requirements for the Safety School Buildings: Any reconstruction or strengthening that is undertaken would, before approval of such work by the State Division of Architecture, have to be carried to sufficient extent as to enable the structure to not only self support the nominal load

Main Building No. 3:
Except for the west basement wall no serious question has been raised regarding this building. Serious consideration should, however, be given to making this wall earthquake resistive. Attention is also called to the possibility of fire hazard from the motion picture booth.

Main Building No. 4:
The south end and basement walls should be strengthened and chimney No. 2 needs strengthening.

Main Building No. 5:
Criticism of this building is

subject to horizontal forces. The provisions, either of wind earthquake, which impose most severe conditions with relation to the stability of the building shall govern.

Main School Buildings. Nos. 1 and 2:
Type of Buildings: These buildings are one story with part being in the east side of building No. 1. Building No. 1 was built in 1925 and Building No. 2 in 1927. They have concrete foundations, wood and concrete floors, wood frame roof, concrete walls, tile roofing and interior

Leslie Howard.

"BERKELEY SQUARE"

By J. A. Kunstman

Fox brings "Berkeley Square" (pronounced Barclay) to the screen with Leslie Howard in the same role that he created several years ago. Broadway took the play to its heart and if possible the picture will be more entrancing than the legitimate version.

It is a strangely beautiful film, clever, romantic, and entirely lovely, and Leslie Howard is magnificent in the role of a young American of the twentieth century, who by his own wish, finds himself among his ancestors of the eighteenth century. It is a difficult role to handle and I am sure you will agree that no other actor could make this story, that is a combination of fantasy and drama as superb entertainment as this star does.

Heather Angel in a hard role

does exceedingly well, as do Irene Brown and Valerie Taylor. The photography is excellent and the direction fine.

Peter Standish gets the idea that the present time is dull and that he would like to live in the romantic past. Inspired by diaries and pictures of his ancestors he gets his wish. In the costumes of his ancestors he enters their lives, keeping the language and customs of the present day. He lives his life just as the older Peter Standish wanted to live his own.

Amid such trivialities as the legitimate theatre is offering these days, this Fox production of the stage success is something to cheer about.

"Berkeley Square" is Leslie Howard's triumph and your pleasure. It is a flawless production, which opens at the Carmel Theatre January 7 for a limited engagement of two days, Sunday and Monday.

NRA SPEAKER COMING

Dr. Frederick Vining Fisher, noted speaker for NRA and national field representative, will probably speak in Monterey soon. Plans are being made for an evening address to which the entire county will be invited.

Bridge Contract Given To Oakland Firm

The Boydenhamer Construction Company of Oakland was given the contract for building bridges over Anderson Canyon, Buck Creek and Lime Creek on the Carmel-San Simeon highway about fifty miles south of Carmel.

The amount of the contract was \$78,096.

From Our Readers

Editor Carmel Sun:
In spite of the progress that has been made on the CWA and PWA projects there are still many men in Carmel, especially skilled mechanics, who are unable to earn enough to support their families.

Hoping that a way may be found to remedy this situation a group of some 45 Carmel working men met Tuesday night, Dec. 26th, to arrange for a central registration office and outline plans to get Carmel jobs for Carmel workers.

Mr. Ed Taylor, associated with the Triangle Realty Co. will take care of the registration of all Carmel workers and residents of Carmel and vicinity can secure any type of labor (skilled or unskilled) by telephoning Carmel 398.

Because the working men of Carmel have not indulged in noisy demonstrations and there is no "panhandling" on the streets by the local unemployed the impression seems prevalent that there is neither unemployment or suffering in Carmel.

If the more fortunate citizens could see behind the brave front assumed by the workers they would realize that the black fear of eviction, want and lowered morale has stalked at our sides for many months.

Will Carmel face this responsibility fairly and promptly or must the working men continue to suffer through the dreary months just ahead?

FRENCH IN SIX WEEKS: READING OF MODERN FRENCH PLAYS

How to acquire a sound background of French in twenty-four lessons through her genuine method is what Mme. Pirenne is going to demonstrate in open meetings at her studio, Junipero and 6th, east side, next Tuesday morning at eleven and a night meeting in Monterey that will be announced later.

On Wednesday at 8 p.m. at the same place a preliminary meeting to decide on a program for the reading of French modern plays. Students and scholars are cordially invited to attend these meetings.

20 years ago when the flood washed away most of his orchard leaving little but his home. He was born in Switzerland in 1850 and for the past few years has been retired, making his home in Monterey.

He is survived by his widow and four children. Mrs. Christine McKenney, Mrs. Flora Pettit and Elmer Tomasini of Salinas and Mrs. Addie Campbell of El Centro. He is also survived by twenty-five grandchildren and sixteen great-grandchildren.

Just Anything

By Jean F. Bunch

A petition signed by 1,000 church members in San Jose demands that Santa Clara county "clean house" among county officials because of the recent lynchings, as well as the conduct of the Lanison and Templeton trials.

One paragraph of the petition says:

"Petulance, incompetence and preoccupation with reelection rather than fulfillment of duties and an undignified atmosphere in some of our superior courts have long prevailed and have undermined the faith of the people in the orderly process of our courts."

"Preoccupation with reelection" stands out prominently from the rest with every person who has given the subject any thought. And what is to be done about it? Even a great part of the president's term is taken up with plans and attempts toward reelection. Never has the condition been so apparent as during the last presidential campaign when President Hoover made his tour and answered charges over the radio, lowering the dignity of the nation. Why not try out the plan of allowing only one term to any office holder thereby making it his aim to leave a record of good work behind him rather than a record of so many terms?

State recovery administration officials are making another attempt to raise the price of hair cutting to 65 cents. This won't make much of a hit with local haircutters, whose business fell off considerably during the "65-cent era." One Carmel barber stated it would take ten years for the business to come back to normal on account of so many home haircutting appliances having been purchased. Mothers have not yet begun to take their children back to the shops for regular trimmings. When women find out how to save money, they save it.

When prices are raised by California people, citizens either cease to buy the product or if possible, they send out of the state. One peninsula sent east for a hundred-dollar job of printing in order to evade the 2 1/2 cent state tax.

Excerpts From Judge Hill's Lecture on Christian Science

Judge Frederick C. Hill, C. S., of Los Angeles, California, a member of The Christian Science Board of Lectureship, delivered a lecture entitled "Christian Science: God's Law of Progress" Sunday afternoon at Sunset School Auditorium, under the auspices of First Church of Christ, Scientist, Carmel, California.

The lecturer spoke substantially as follows:

In presenting the subject of Christian Science to you I shall make an earnest endeavor to present its object and purpose from the standpoint of what it is, and how it operates, as distinguished from that which it is often erroneously believed to be.

I can think of no better introduction, in presenting the motive and purpose of Christian Science, than to refer to a public declaration recently made by a clergyman who, in the course of a sermon, is reported to have said, "Christian Science sprang directly out of the Holy Scriptures; for Christ introduced healing and the driving out of superstition in his own day." From this declaration it should be plainly apparent that the religious world is beginning to recognize that Christian Science is a religion; and that the fundamental purpose of this religion is to reinstate the essential elements of primitive Christianity, including the element of spiritual healing.

The Galilean Prophet, Christ Jesus, once said, "And ye shall know the truth, and the truth shall make you free." Since the time of that important declaration, humanity has asked the questions: What is the truth? Can truth be discerned, interpreted, and intelligently applied? The answer to the last question is positive and direct. The truth is discovered, interpreted, and applied in proportion as an individual reforms and transforms his thought to conform to the law of spiritual, scientific thinking.

In the material universe we observe the operation of that which mankind has been pleased to define and term as law. We observe that humanity is made up of individuals bound together and held by the various phases of law. We further observe that in the universe about us there is in active operation a force which has been termed the law of gravitation. We also observe that which has been termed the law of numbers, and the law of harmony. Would it not then be reasonable to assume that as mankind observes about them these various phases and forms of material expression, there is a fundamental spiritual law by which man lives, moves, and has his being? We not only affirm this to be a reasonable and normal assumption but that it is a provable fact—that there is a spiritual law of man's being. Hence, there must be, there is, a rational way by which men can discern, interpret, and intelligently apply this fundamental law, to the end that they can solve every distressing problem of mortal existence. Throughout the world there are hundreds of thousands of individuals who through the study of Christian Science have discovered and are interpreting and applying that law. Hence, in this lecture it is our purpose to discuss and present the subject of Christian Science from the standpoint that it interprets God's law of progress.

An Essential Element
Human law has been defined to be a governing rule of conduct prescribed by a supreme power, commanding that which is right, and prohibiting that which is wrong. This law is but the attempt of mankind to pattern infinite divine law.

I ask you to pause and consider for a moment. That which is right, of necessity is good. And that which is both right and good is true. When we apply this logical line of right thinking we shall at once discover that there is a law of God, of good, and that this supreme law finds expression in a positive command to observe that which is right, that which is good, and that which is the truth. Hence, just to the extent that men discover and obediently follow the law of man's being, they will have discovered the truth which Christ Jesus declared and demonstrated centuries ago that mankind should know. And the knowledge of this truth will make us free from every one of the deluded beliefs of the human mind.

Christian Science: Its Inception
Christian Science is a discovery. It is the discovery of an absolute provable law. This discovery was made in 1866, by a gentle, New England woman, Mary Baker Eddy. She named her discovery "Christian Science." She defined Christian Science "As the law of God, the law of good, interpreting and demonstrating the divine Principle and rule of universal harmony" (Rudimental Divine Science, p. 1).

After her discovery, in 1866, Mrs. Eddy submitted her discovery to proof. As a result, she observed that just in proportion as she understood and interpreted this law of man's true being to the daily affairs of her human experience, that her thought was elevated and transformed, that this transformation of her thinking was expressed in the enjoyment of a better sense of health, happiness, peace, and contentment. Accordingly, she had a deep desire to share her discovery with the world. She wrote and published her book, "Science and Health with Key to the Scriptures," which she designated the Christian Science textbook. This book is not a Bible. It is not a substitute for the Bible, but it is just that which its name indicates, a Key to the Bible, to aid and assist in discovering, interpreting, and applying the healing spiritual truths set forth in the great English classic, the King James Version of the Bible.

It is now more than fifty years since this book became public property. The interest of the reading public therein continues unabated. The interest in this book has grown by leaps and bounds, until it has become recognized and declared by many as the most important production

among religious writings, with the exception of the Holy Bible. The reading and the study of this book has inspired faith and confidence in the teachings of the Bible. It has brought elevation and transformation of thought to many, and there are hundreds and thousands of individuals throughout the world who have been so transformed in thought that this transformation has been, and is, expressed in health, happiness, peace, and contentment. These individuals owe their present existence on this plane of human experience to the transformation wrought in their lives by her discovery and the gift of Christian Science to humanity.

CHRISTIAN SCIENCE CHURCH

"O Lord of hosts, God of Israel, that dwellest between the cherubim, thou art the God, even thou alone, of all the kingdoms of earth: thou hast made heaven and earth." These words from the Book of Isaiah comprise the Golden Text to be used Sunday, January 7, in all Churches of Christ, Scientist, branches of The Mother Church, The First Church of Christ, Scientist, in Boston, Mass.

The subject of the Lesson-Sermon will be "God." Included among the Scriptural selections will be: "There is none like the Lord; for there is none beside thee: neither is there any rock like our God. Talk not more so exceeding proudly; let not arrogancy come out of your mouth: for the Lord is a God of knowledge, and by his actions are weighed." (1 Sam. 2:2, 3).

The following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy, will also be included: "Divine metaphysics, as revealed to spiritual understanding, shows clearly that all is Mind, and that Mind is God, omnipotence, omnipresence, omniscience—that is, all power, all presence, all Science." (p. 275).

MRS. J. W. WRIGHTSON HAS PASSED AWAY

News comes from Fresno that Mrs. J. W. Wrightson, whose Carmel home is at 10th and Carmelo, passed away December 8, after an illness of only a few hours.

She will be greatly missed by her devoted husband, and by her many friends who have enjoyed her charm and gentleness.

NEW AUTOMOBILE LICENSE PLATES

The annual state motor vehicle license renewal season opened at Sacramento and all branch offices of the Department of Motor Vehicles Tuesday morning, January 2nd, at 9 o'clock a.m.

License plates will be delivered directly over the counters to all who call and present the 1933 certificate of registration and the amount of the fee.

Offices of the department at which license plates may be obtained are located at Sacramento, San Francisco, Oakland, Stockton, Fresno, Los Angeles, Pasadena, San Jose, Long Beach, San Bernardino, Hollywood and San Diego.

In addition more than five branch offices of the automobile associations have been authorized to serve their members with plates.

Offices of the department will be open from 9 a.m. to 5 p.m. Additional clerks will be hired to give as speedy service as is possible.

Russell Bevans, registrar of the department, urged motorists of the state to secure their plates as early as possible.

Bevans pointed out that the law requires the department to exact penalty equal to the amount of the fee from applicants who wait longer than the legal limit before filing applications.

For those unable to make a special trip to a branch office, the mail order method is still available. All that is required is to enclose the fee and the certificate of registration in an envelope and mail them to Sacramento.

Persons who have discharged their obligations on vehicles to finance companies or others during the year are required to bring their certificates of ownership in order that the proper transfer may be entered in the proceedings.

Anyone who has moved during the year should write in the new address on the certificate of registration before presenting it.

WOMEN VOTERS WILL HEAR NOTED LECTURER

Miss Llewellyn Toland, chairman of the Legal Status of Women section of the California League of Women Voters, will explain the position which the league has taken in opposition to the "Equal Rights Amendment" at the next luncheon meeting of the Peninsula League. This meeting, Wednesday, January 10th at Holman's Solarium from 12 to 2 p.m., has been arranged by Mrs. Willis G. White, chairman of the local Legal Status of Women study group.

Miss Toland, a San Francisco attorney, believes it is tremendously important that every league member should know what the amendment means and what it implies in the way of danger to all of the protective legislation for which the league has worked for many years.

The amendment is sponsored by the Women's Party in an attempt to create equality between men and women within the United States. Believing specific legislation designed to meet a specific evil to be the only effective means of securing actual equality for women, the league has always held that blanket legislation of this sort was dangerous.

Reservations should be made before noon on the day preceding the luncheon with Mrs. Vera Peck Millis, Carmel. All interested women are invited to attend regardless of whether or not they are members of the league.
